WORK EXPERIENCE

Frontend Developer   August 2023 – Present
DI Solutions – Surat, India

- Develop and maintain cutting-edge web and mobile applications using React.js, Next.js, and React Native.
- Implement Tailwind CSS for efficient styling, ensuring pixel-perfect, responsive, and high-performing designs.
- Optimize application performance, reducing load times and enhancing user experiences across devices.
- Seamlessly integrate third-party APIs, improving functionality and business logic efficiency.
- Collaborate with cross-functional teams to deliver complex, production-grade solutions tailored to client needs.
- Stay updated with emerging frontend technologies and contribute to the team's technical growth.

PROFESSIONAL JOURNEY

🚀 **Starting the Journey (2020)**

- Entered the tech world with a passion for web design & development, mastering HTML, CSS, JavaScript, and React.js.

🛠️ **Learning Through Practice (2021)**

- Completed formal training and built multiple projects, refining skills and translating ideas into functional applications.

💼 **Professional Growth (2022)**

- Secured an internship and transitioned to a Junior Developer role within six months.
- Gained hands-on experience with Next.js and React Ionic, contributing to real-world production projects.

📈 **Advancing to Senior Developer (2023)**

- Led development efforts, optimized performance, and mentored junior developers.
- Delivered high-quality web applications while implementing scalable, maintainable code.

🌍 **Expanding Horizons (Present)**

- Pursuing freelancing alongside my full-time role, helping clients bring creative ideas to life.
- Passionate about crafting innovative, efficient, and user-friendly digital solutions.
